Attachments: Follow-up from Endorsement; Copy of NPDES DOCKET December2020 (002).xlsx

Mark,

I actually received an update from Stacie on these facilities last week after the most recent endorsement meeting. They sent IRLs out for both of the facilities and reviewed the information and I think are closing out the cases. She Stacie's email attached. There are also notes about them in the December Docket under the "Pending" sheet. The docket notes are a little older since that was from before the endorsement meeting and Stacie's email.

Follow-up from
Endorsement

Copy of NPDES
DOCKET Decem...

Neither of the PA facilities seem to be on the SNC list this quarter. I am keeping them on a list to check for future quarters though.

Best,
Amanda

Subject: Facilities on SNC list

Amanda,

I had two facilities that were on the SNC list last year and that I was going to inspect (plans which got derailed when COVID hit):

Nonresponsive based on revised scope	
---	--

I wanted to check in with you and see if there is any info/update you know about these facilities, and whether EPA or PADEP took any actions while I was on detail. If not, do you know if these facilities are on the FY21 inspection target lists for either EPA or PADEP?

Thanks,
Mark
